

Lost in a farm

7th May, 2024, Saturday

Last Saturday, my family and I went to the famous farm Fantastic Holiday Farm in the New Territories. My brother, Bob and I were very excited as it was the first time we had been to this farm.

First, we went to feed animals in the morning. We saw different kinds of animals, from cows to pigs and goats and ducks. Bob got a stick and tried to feed it to the cows, but instead of eating it, the cow stared at Bob. How hilarious!

In the afternoon, we went to the field to pick vegetables and fruit. The field was very big. It was like a giant maze. While I was picking fruit, I got distracted by a butterfly. After I looked back, my family was already gone!

I started to panic, I searched everywhere, but still, I could not find my family. I was lost, afraid and didn't know what to do. I sat down, hopelessly, thinking that I would be lost in this field forever and never be able to see my family again.

Hours passed, the sky was beginning to get darker, I began to starve. I learned to be focused and not get distracted.
